

Software Development Fundamentals

40361A

Delivery Type: Classroom

Duration: 3 days

Overview:

This three-day MTA Training course helps you prepare for Microsoft Technology Associate Exam 98-361, and build an understanding of these topics: Core Programming, Object-Oriented Programming, General Software Development, Web Applications, Desktop Applications, and Databases. This course leverages the same content as found in the Microsoft Official Academic Course (MOAC) for this exam.

Audience Profile:

The Microsoft Technology Associate (MTA) is Microsoft's newest suite of technology certification exams that validate fundamental knowledge needed to begin building a career using Microsoft

technologies. This program provides an appropriate entry point to a future career in technology and assumes some hands-on experience or training but does not assume on-the-job experience.

Course Completion:

After completing this course, students will be able to:

- ✓ Understand Core Programming
- ✓ Understand Object-Oriented Programming
- ✓ Understand General Software Development
- ✓ Understand Web Applications
- ✓ Understand Desktop Applications
- ✓ Understand Databases

Prerequisites:

There are no prerequisites for this course.
